PANDA 3.0 PRO
405-430 W

IMPROVED POWER
NEVER SETTLE FOR LESS

PANDA 3.0 modules use the industry's cutting-edge n-type monocrystalline TOPCon cell technology. With high quality encapsulation materials and classic glass-backsheet structure, PANDA 3.0 modules are perfectly suited to the harsh environment and provide you with high reliability and quality assurance.

Classic Structure
The glass-backsheet structure and layout design have been proven in the market for a long time.

Superior Yield
The large size cell enhances the module's power output, with the excellent temperature coefficient, superior low light performance and comprehensive LID/LeTID degradation suppression technology, allows the module to generate more energy yield once in use.

Excellent Durability
The modules meet IEC standard testing requirements and are resistant to salt mist, ammonia, dust and sand, snail trail and PID risks.

Wide Applications
The glass-backsheet structure, special material selection and extra-strong frames effectively enhance the mechanical performance of the modules, their compatibility with mainstream trackers and inverters, and their adaptability to harsh environments.

Lower Losses
The multi-busbar design effectively reduces the impact of micro-cracks and broken busbars, and the half-cell structure effectively reduces the impact of shadow shading.

QUALIFICATIONS & CERTIFICATES

Yingli Solar
Headquartered in Baoding, China, Yingli Energy Development Company Limited, known as Yingli Solar, is a leading solar solution provider. Yingli Solar is committed to providing clean, renewable energy through PV power generation technology for factories, homes and utilities around the world. Yingli Solar provides reliable products and services through continuous technological advancement and management innovation.

*NOCT: open-circuit module operation temperature at 800 W·m$^{-2}$ irradiance, 20°C ambient temperature, 1 m·s$^{-1}$ wind speed.

General Characteristics

- Dimensions (L / W / H): 1722 mm / 1134 mm / 30 mm
- Weight: 21.5 kg

Packaging Specifications

- Number of modules per pallet: 36
- Number of pallets per 40' container: 26
- Packaging box dimensions (L / W / H): 1740 mm / 1110 mm / 1245 mm
- Box weight: 810 kg

Back View (units: mm)

Warning: Read the Installation and User Manual in its entirety before handling, installing and operating Yingli Solar modules.

- Due to continuous innovation, research and product improvement, the specifications in this product information sheet are subject to change without prior notice. The specifications may deviate slightly and are not guaranteed.
- The data do not refer to a single module and they are not part of the offer, they only serve for comparison to different module types.
